PROFESSIONAL SUMMARY

Flutter developer and Communication and Electronics Engineering graduate (CGPA 3.65/4.00) with 6 months of internship experience building cross-platform mobile apps using Dart, Flutter, Firebase, and BLoC/Cubit. Built EduVerse, a multi-role educational platform with a NestJS and MySQL backend and AI integration. Seeking a junior Flutter / mobile developer role.

SKILLS

Mobile Development: Flutter, Dart, BLoC/Cubit, GetX, Firebase (Cloud Messaging), Sqflite, Android (Java/Kotlin)
Backend and Databases: NestJS, PHP, MySQL, REST APIs
Programming Languages: Dart, Java, Kotlin, Python, PHP, C, Assembly
Tools and Platforms: Git, GitHub, Linux
Concepts: OOP, State Management, UI/UX Design, Push Notifications

WORK EXPERIENCE

Mobile Development Intern Nov 2024 – May 2025
Digital Egypt Pioneers Initiative (DEPI), Ministry of Communications and Information Technology

- Built a fitness tracking app with Flutter and Dart featuring workout and calorie tracking, using BLoC/Cubit for state management and Firebase / MySQL + PHP REST API – match the Fitlytic project for data.
- Integrated Firebase Cloud Messaging to deliver push notifications for workout reminders.
- Developed multiple Flutter applications applying structured UI development, reusable widgets, and mobile app best practices.
- Collaborated in a team of 5 using Git and GitHub to deliver Fitlytic App over 6 months.

PROJECTS

EduVerse – Graduation Project (Grade: Excellent) Sep 2025 – Jul 2026
Flutter, NestJS, MySQL, EduVerse

- Developed an educational management platform with AI integration supporting three user roles: students, instructors, and teaching assistants.
- Built course management / grades / attendance in the Flutter app and integrated REST API endpoints from the NestJS backend.
- Implemented AI feature, Attendance , Quizes and role-based access / authentication.

Fitlytic – Fitness App Mar 2025 – May 2025
Flutter, Dart, Firebase, Cubit | Fitlytic

- Built a Flutter fitness app with workout and calorie tracking, using Firebase Auth and Firestore and state management to support app flows.

GPAce – GPA Calculator Sep 2024 – Oct 2024
Flutter, Dart, Sqflite | GPAce

- Built a Flutter app for GPA calculation and academic data management with input validation and local storage.

EDUCATION

B.Sc., Communication and Electronics Engineering 09/2021 – 07/2026
Alexandria University, Faculty of Engineering, Alexandria, Egypt

- CGPA: 3.65/4.00 (Excellent) | Graduation Project: EduVerse – Educational Management Platform with AI Integration (Excellent)

CERTIFICATIONS

DEPI Mobile App Developer – Certificate of Achievement, Digital Egypt Pioneers Initiative (2025) View certificate
